

Stuart Lees

Qualifications:

- Mechanical Engineering (Auckland University)

Stuart has been actively involved in woodworking for over 8 years. He is a part of the Triton Woodworkers club, where he was Club President for a number of years, today due to other commitments he works as the instructor for the club.

Stuart loves woodworking and spends most of his free time involved in one project or another. He demonstrates woodworking at wood show, compiles video podcasts on woodworking techniques and writes articles for the Australian Wood Review magazine and Australian Toy Maker among others.

There is not much Stuart hasn't been able to construct: entertainment units, nautical weather stations, bookshelves, dog houses and a range of toys and playhouse furniture. His passion for woodwork is contagious and with his instruction he will have you capably constructing your own pieces using Triton in no time.

Stuart teaches the following courses:

- Triton Weekend Workshop
- Cabinetry on Triton Series
- Flatpack Sheds
